Dear Mr. Reyes,

Having a 3500 sq. ft. store to finish and a deadline in a city I had only just moved to was a dilemma of the worse kind. After having been introduced to a few contractors, I finally met you. It immediately became apparent to me that you were the knowledgeable and yet compassionate person that I was looking for to get the project done in a professional and expedient manner.

Rambo Builders was instrumental in the finalization of all the details and creativity that went into the build out of Head to Toe Boutique. Your entire crew was always motivated, efficient and willing to do whatever was needed to get a particular task finished. They produced high quality work in a timely manner and all the while staying quite conscientious and professional.

Your word is your bond, Mr. Reyes, and my project at Head to Toe Boutique turned out better than I could have ever hoped it would. It is with great pleasure that I highly recommend Rambo Builders for any future projects.

Sincerely,

Andrea Staluppi
